Current Position

- **Ph.D. Student**
  CSIR SRF, Department of Physics, Cochin University of Science and Technology, (2019 – Present).
  Supervisor: **Dr Titus K Mathew**, Professor, CUSAT.

  I work on holographic dark energy model and horizon thermodynamics. I also focus of the effects of neutrinos in the cosmic evolution and explore the features like geometric phases in neutrino oscillation. I am also active member of Fermilab, NOvA collaboration.
